# Humanitarian Diplomacy Lab

## OPEN SITUATION ROOM

 21 March, 2017  2PM - 5PM

 at the OpenGovHub, Gyaneshwor

How can technology led interventions coupled with community presence close the feedback loops cheaply and efficiently for disaster prone communities in low-tech South Asia?

OpenGov Hub Kathmandu is hosting Kathmandu leg of **Open Situation Room on Humanitarian Diplomacy Lab** together with the Global Diplomacy Lab, the foreign policy think tank foraus, swissnex San Francisco, and the Consulate General of Switzerland in San Francisco.

Using a collaborative and fast-paced methodology, we invite technologists, creatives, entrepreneurs and humanitarians to jointly brainstorm and innovate on solutions that address one of the key challenges in humanitarian settings - using technology and community engagement to close the feedback loops cheaply and efficiently.

Seats are limited to 15 participants – so RSVP today to [info@citizenhelpdesk.org](mailto:info@citizenhelpdesk.org) to register your interest.
