- 12.00 Lunch at SAT and presentation of the SAT METALAB

13:30 **Thematic Workshops**

Introductory Panel

Thematic frame: Globally spreading digitization is rearranging the relationship between diverse actors in our societies and decision-making processes. On the political level, today's Internet environment is increasingly controlled, surveilled and weaponized, with repercussions in public and private spheres both online and offline. The economic sector is readapting its production patterns, and even influencing the very nature of the monetary system. In spite of efforts, competitiveness, sustainability and fair division of labor are still not synonyms. At the same time, (social) media has become an unprecedented tool for democratization of political decision-making, and digital platforms have established a dynamic space for collaborative approaches in post-growth economies.

*How to decode the ambivalent and subtle messages enabled by the Internet?
What is at stake at the balance of power through information technology?*

Experts:

Daniel Ben-Aron, Vice President of Product at Fastacash

Daniel Domscheit-Berg, former Spokesperson for WikiLeaks and founder of OpenLeaks

Natalya Nepomnyashcha, GDL Member, Manager at eHealth Africa and Founder of Netzwerk Chancen

Moderated by:

Claude-Yves Charron, Director, l'Institut d'études internationales de Montréal (IEIM)

 QUEBEC INSTITUTE OF TOURISM AND HOTEL MANAGEMENT (ITHQ)
 3535 RUE SAINT-DENIS
 MONTRÉAL, QC H2X 3P1

12:30 Presentation Site Visits and Lunch at ITHQ

14:00 **Open Situation Room**
 The role of Federated States in the digital diplomacy

A situation room is a place where government officials gather in times of crisis to collect information and coordinate activities. Inspired by this example, it is a location designed for debate and discussion, rather than for command and control. It is an atelier politique, an information centre and a meeting place for decision makers, artists, students, analysts and journalists.

During the Open Situation Room in Montreal, participants will tackle digital diplomacy challenges which Global Affairs Canada and Quebec's ministry of foreign relations face in their daily operations and policy planning. The thematic focus will lay on how to better collaborate across institutional and national borders, and how to design programs and methods that go "beyond hashtags" to have greater impact in the digital and analog world.

Experts:
Martha McLean, Deputy Director at Global Affairs Canada
Olivier Béliveau, Advisor, Digital solutions, Ministry of International Relations, Quebec

Facilitated by:
Nicola Forster, Member of the GDL Advisory Council and President of foraus
Vivian Valencia, GDL Member and Research Fellow, University of Michigan

Ryan Androsoff, Senior Advisor, Digital Government at Government of Canada
Daniel Domscheit-Berg, former Spokesperson for WikiLeaks and founder of OpenLeaks

19.30 Dinner party

Sunday, November 6 th 2016

Conférenciers:
Imran Simmins and Vivian Valencia
Members of the GDL Advisory Council

Until 9:30 Breakfast and check-out

10:00 **Peer-to-peer Open Space**

Each GDL member holds unique diplomatic insights and perspectives. We would like to encourage the members to share them with the other participants by hosting a “project development” or a “teaching a diplomatic skill” session.

Members can present a project they currently work on, an idea they developed during the Lab, or propose to host a 45min interactive session or discussion round. The other members choose the sessions they are most interested in.

Idea: In a more complex world, diplomacy occurs both inside and outside of formal diplomatic circles. How to recognize weaknesses and strengths of different actors and to build synergies among them, allowing regulation without falling into the fallacy of control, is key for effective policy making.

The aim is to explore existing innovative examples of international cooperation from different topic areas (trade, humanitarian, environmental, security issues) and across different groups (national, local governments, business associations, foundations, and grass roots groups), and to identify the instruments, processes and skills that make their cooperation a success.

In short: What can traditional diplomats and other international actors learn from each other? How can they cooperate towards mutually desirable outcomes?

Salle Création
Hyatt Regency Hotel

Facilitated by:
Member of the GDL Advisory Council

- 12:15 Check-out session: Keep & Change
- 12:45 Closing remarks of the Advisory Council
- 13:00 Lunch
