

# Humanitarian Diplomacy Lab

21 MARCH 2017, 6PM - 9PM

at the ICRC Headquarters in Geneva

How to create digital trust and engagement in insecure environments?

The Geneva leg of the Humanitarian Diplomacy Lab will explore the drivers of trust in a digital environment.

How do we ensure the security of people who engage with humanitarian organisations? How do we deal with propaganda and fake news? Ultimately, how do we build trust between organisations and people?

Join us if want to explore new and inclusive forms of diplomacy in order to tackle urgent humanitarian challenges such as this one.

Places are limited. Please register here:
